DETAILED ACTION

Allowable Subject Matter

1. Claims 2-20 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record teach all the limitations of claims 12, 19 and 20 except for "means for determining a first rate of heat flow of a heat exchange fluid flow across a heat exchanger of the system and a second rate of heat flow of the refrigerant across the heat exchanger, and using the rates of heat flow for establishing an energy balance from which a residual for monitoring the refrigerant mass flow is derived." The prior art of record (*Cenegel*, Thermodynamics) discloses determining a rate of heat flow of a heat exchange fluid across a heat exchanger and forming an energy balance (see pages 193-195), but not means for determining a first rate of heat flow of a heat exchange fluid flow across a heat exchanger of the system and a second rate of heat flow of the refrigerant across the heat exchanger, and using the rates of heat flow for establishing an energy balance from which a residual for monitoring the refrigerant mass flow is derived. Although it is well known to provide energy balance calculations across a heat exchanger, there is no teaching in the prior art of record that would, reasonably and absent impermissible hindsight, motivate one having ordinary skill in the art to modify the teachings of the prior art to incorporate means for determining a first rate of heat flow of a heat exchange fluid flow across a heat exchanger of the system and a second rate of heat flow of the refrigerant across the heat exchanger, and using the rates of heat flow for establishing an energy balance from which a residual for monitoring the

refrigerant mass flow is derived. Thus, for at least the foregoing reasons, the prior art of record neither anticipates or rendered obvious the present invention as set forth in claims 12, 19 and 20.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
